Indirect Cost Rate Policy

The federally negotiated indirect cost rate between the University of Denver and the Corporation for National and Community Service is five percent. This indirect cost rate applies to the Compact Service Corps AmeriCorps Program hosted by Campus Compact of the Mountain West and its fiscal agent, the University of Denver. Because the allowed maximum for indirect costs is taken from the grant by the University of Denver as fiscal agent for the grants, Campus Compact of the Mountain West/University of Denver restricts further indirect expenses from being assessed from grant funds passed through to host sites. Allowable uses for pass-through funds to support CNCS programs are outlined in the specific Service Agreement for each program, if applicable. Questions about this policy may be directed to the CCMW Executive Director, Stephanie Schooley, at sschoole@regis.edu or 303-964-5084.
